

I'm not robot!

By Shannon PalusUpdated December 10, 2021Photo: Michael MurtaughWe spent more than four weeks testing 17 diffusers, and our favorite is the Urpower 2nd Gen 300ml Aroma Essential Oil Diffuser. It puts out a strong stream of mist, has a larger capacity and smaller footprint than much of the competition, and, while affordable, has a clean design that looks better than others at its price.The Urpower 2nd Gen 300ml Aroma Essential Oil Diffuser is a simple white plastic cylinder in a field crowded with funny shapes and (very) faux wood. ItcÁÁÁs one of the least expensive diffusers we looked at, working better than models four or five times the price. The medium-size tank provides water for seven hours of a strong stream of mist (though youcÁÁÁÁll need to add more oil during that time for continued scent). It lights up in seven colors, offers a timer function, and has LED indicator lights that arencÁÁÁt as distractingly bright as those on much of the competition. ItcÁÁÁs easy to wipe out with a cloth to keep clean.With as strong a stream of mist as our pick, this diffuser has a larger tank you woncÁÁÁt have to refill as often. However, it takes up more space, and the faux-wood look isncÁÁÁt for everyone.\*At the time of publishing, the price was \$28.This 500 mL model is nearly identical to the Asakuki.\*At the time of publishing, the price was \$30.If our top pick is sold out or youcÁÁÁd like a slightly bigger tank, we recommend the Asakuki 500ml Essential Oil Diffuser (or the nearly identical Urpower 500ml Aromatherapy Essential Oil Difuser). We recommend whichever you prefer on price or aesthetics, and both have a strong, rich, stream of mist thatcÁÁÁs on par with that of our pick. At around double the tank size of our pick, 500 mL diffusers requires fewer refillscÁÁÁAnd in fact, these diffusers are the only style we tested with a unique low-output mode that can run for up to 16 hours. However, a model at this size also takes up orol al :ivurtiV id itimil i ehcna onodividnoC .otnepc e eroloc aibmac ehc Átliadom alla ertlo .iroloc ettes-ecul id inoizatsopmi evon ah tsetiviV .osoizarg otsoittuip engapmahc eroloc ocinu nu ni - ffo e ossab .otla - ecul id inoizatsopmi ert olos noc .eud ied atsilaminim 'Áip li Á imuk li .onem otlom onatsoc am ,ittaf onos iuc id ilairetam ia onif ,ivurtiV arteip al rep etrom eirenous onos irosuffid eud itseuQ ,ivurtiV e imuK ied inoizatserp el e acitetse! eneitnam am enoizatsopmi id inoizpo 'Áip ah tsetiviV li 0 Á id are ozzerp li ,arotide!led ontemom IA\*.osotsoc 'Áip otlom ivurtiv li emoc odom ossets olla anoizuf ehc atsilaminim enoizpo'nu Á imuk li ,atlecs artson alla ocitnedi omisstitIA .eroligim olager nu eraf ebberpt am( osotsoc 'Áip ehcna Á .etlecs iroligim ertson ella ottepsir esoditsaf 'Áip etnemreggel aciracir al e aizilup al onodner oihcrepoc id itarts eud ,aiv erazzaps elicaf Á ertnem e ,osseps 'Áip eripmeir iarvod idniyuq ,oloccip Á oiotabres li .aremac oiub nu ni imrod ertnem irroc ehc ecap it es eroligim atlecs al olodnedner .) If your priority is a strong smell, go with a nebulizer. It is more pricy of our higher and more difficult choice of ultrasound models to clean, but unbeatable to fill a room (or few) with perfume. If you want a device that does the best possible work of scattering perfume with more rooms simultaneously and you do not mind spending more money, the organic aromas raindrop 2.0 nebulizing essential oil diffuser is a nebulizer that mystery pure oil, unlike our other choices , which are ultrasound. (Here is a detailed explanation of the difference.) The lights on this diffuser are Dim compared to those on our upper pick and runner-up, and there is no fresh fog to look at. It is less expensive than others of its kind, more beautiful, and much more peaceful (nebulizers usually make a lot of grinding or buzzing noises). The rain jet flows for two hours, spreading the intermittent oil, and an automatic arrest helps to avoid overdoing the smell. Like all nebulizers, it is annoying to clean. Essential oils can be toxic to pets. Do not directly apply the skin of an animal, and avoid using an active speaker in the same room as your pets. Image not available
